COMMERCIALISATION AUSTRALIA

Application Form

Eligible Partner Entities

Before using this form:

- Read the *Commercialisation Australia Customer Information Guide* [the Guide], specifically Section 2.
- Note that applications are handled using the privacy and confidentiality provisions outlined in the Guide.

Any questions in relation to completing or submitting this form should be directed to the CEOofCA@innovation.gov.au or call 02 6213 7611.

Part A: Overview

A1. Who can apply

This application form is for entities that wish to be approved as an Eligible Partner Entity (EPE). An example of an EPE could be the commercialisation office of a research organisation that does not meet the definition of a Publicly Funded Research Agency (refer to the Guide). A business incubator could also qualify as an EPE if it accepts individuals as tenants as well as companies. Please refer to Section 2 of the Guide for additional information.

You are able to satisfy the following:

The primary purpose of the organisation is to assist individuals or companies in commercialising intellectual property

The organisation must be based in Australia and be financially viable

The organisation assists (or is aiming to assist) multiple clients who may or may not be participants in the program

The organisation must have regard to the policy objective of *Commercialisation Australia* and be able to operate within the spirit of the program.

The organisation must declare any conflict of interest with potential program participants

The organisation complies with the *Equal Opportunity for Women in the Workplace Act 1999*

Please note:

- You do not need to register as an EPE if you intend to assist companies only. Companies need to apply directly to *Commercialisation Australia* and only individuals or researchers may apply through an EPE.
- An individual or researcher who has successfully applied for the Skills and Knowledge component through an EPE cannot use the grant to purchase expert advice or services from the EPE.
- If you are the commercialisation office of an Australian university or a Publicly Funded Research Agency (PFRA) then you do not need to register as an EPE. Please refer to the Guide for definitions of Australian university and PFRA.

A2. Policy Objective

The policy objective of the *Commercialisation Australia* program is to build the capacity of, and opportunities for, Australia's researchers, entrepreneurs and innovative firms to convert intellectual property (IP) into successful commercial ventures, enhancing Australia's participation and competitiveness in the global economy and generating commercial returns from Australia's significant investment in public sector research. This is a response to systemic and market failures in the pathway to early stage commercialisation.
